- 99.9995% up-time

CRYSTAL CLEAR,
UNCOMPRESSED
BRILLIANCE

Extreme Radiology

The world's only platform delivering
uncompressed, real-time DICOM
images to any device. Anywhere.

MOBILITY

Extreme Radiology allows any mobile device to become a remote viewing station, with instantaneous access to your DICOM images anytime, anywhere.

SIMPLICITY

NO PACS, no expensive long term contracts, no IT support. Simply the cloud.

“Extreme Radiology technology is a game-changing technology platform for the medical image market.”

— Frost & Sullivan, Global Research

IMAGE CLARITY

No compression. No image degradation. Just full blown DICOM images on the viewer of choice.

SECURITY

All images are stored, centralized, processed, and rendered within the cloud never leaving the cloud. NO more footprints on any device. Multiple times HIPAA compliance.

SPEED

Ultra-fast real time! View images as your patient is being scanned.
